PETRONAS Fluid Technology Solutions™

YOUR PARTNER FOR PROGRESS

PETRONAS Lubricants International (PLI) is the global lubricant division of PETRONAS, one of the most successful petrochemical companies in the world.

Our mission is to deliver proven product technology and related services benefitting from our 100 years of experience. We believe in maximising your productivity with value-added products and services that are global, yet personal – our presence in 128 countries ensures our technical expertise reaches you wherever you are.

PLI's differentiator is product excellence, developed by world-class Technology Centres and brought to your market with local expertise. Our passion for performance improvement makes us an obvious choice for key OEMs and delivers success in Formula One Motorsport. Now, it has translated into a comprehensive industrial product range and tailor-made services for you.

Together, let's take your operational performance to the next level.

YOUR CHALLENGES, OUR EXPERTISE

The ever-increasing demand for energy has become a major challenge for the power industry worldwide. As a result, generating plants are being pushed to the limits of their operating performance and reliability. Long maintenance intervals, extreme operating conditions, such as exposure to high temperatures and pressures, water contamination and complexity of the equipment, all combine to increase the challenges of maintaining power generation systems. When the effects of an unexpected breakdown can cause disruption to lives and industry, incurring huge costs on a daily basis, reliable, high quality lubricants are vital.

As the preferred strategic partner and provider of lubrication solutions to major

power generators worldwide, we have gained a thorough understanding of the lubrication requirements and challenges facing your business.

With a holistic approach in mind, we have developed **Fluid Technology Solutions™**, an intelligent approach to your fluid requirements that maximises your business performance through tailor-made product offerings and expert services. It is designed to help your business reach new levels in productivity and profitability by enabling better efficiency and quality.

With PETRONAS on board, you can be assured of a reliable partner for progress.

POWER GENERATION**

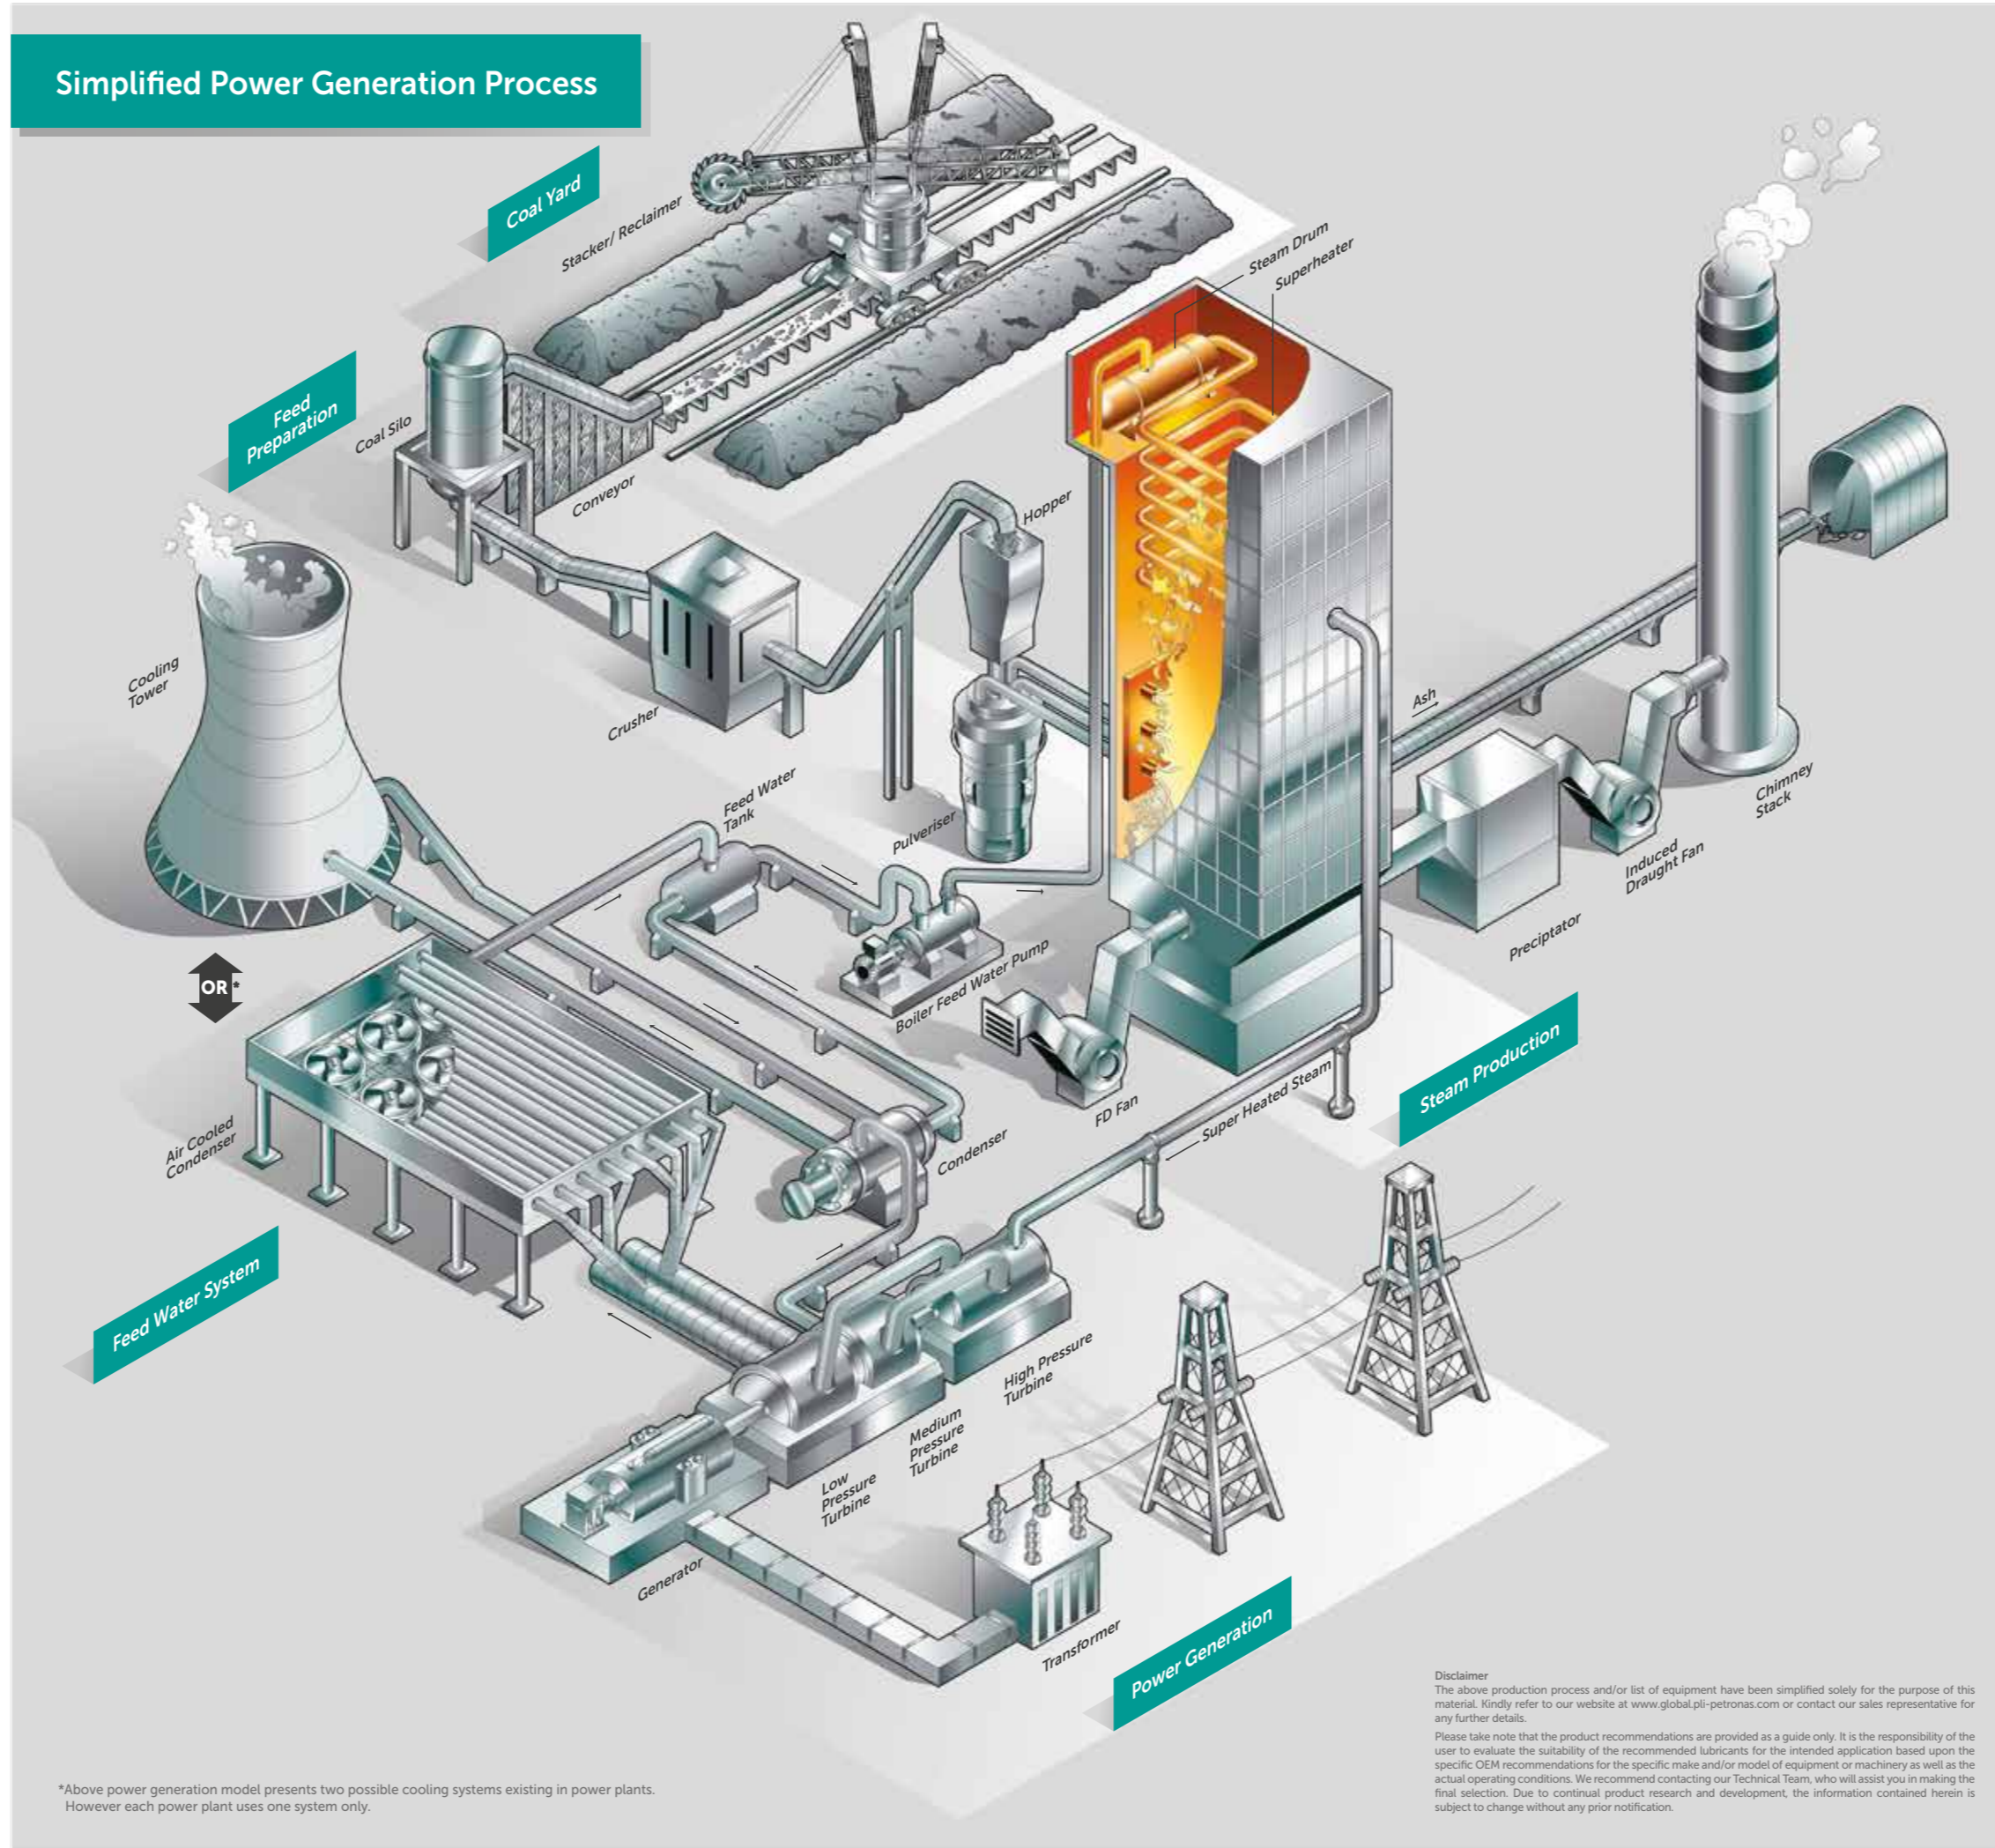

YOUR KEY TO MAXIMIZING PERFORMANCE

By focusing our expertise and utilising the latest advances in lubrication technology, we have developed a comprehensive range of state-of-the-art lubricants that meets the needs of all power-generating equipment. Choose the correct lubricant for equipment requirements and watch your productivity accelerate to the next level.

Simplified Power Generation Process

*Above power generation model presents two possible cooling systems existing in power plants. However each power plant uses one system only.

Disclaimer
The above production process and/or list of equipment have been simplified solely for the purpose of this material. Kindly refer to our website at www.global.pl-petronas.com or contact our sales representative for any further details.
Please take note that the product recommendations are provided as a guide only. It is the responsibility of the user to evaluate the suitability of the recommended lubricants for the intended application based upon the specific OEM recommendations for the specific make and/or model of equipment or machinery as well as the actual operating conditions. We recommend contacting our Technical Team, who will assist you in making the final selection. Due to continual product research and development, the information contained herein is subject to change without any prior notification.
